I bought it for ETS2 and also got it for ATS. I have to say SCS, you are doing an excellent job of keeping a customer happy. I will expand this review once I get to play it fully, but I wanted to let this be known.. You can finally customise deez nuts. Tons of wheel options now! Something for everyone!. Excellent! Now I can spend even more time in the Service Centre picking exactly the right tone and shade for my wheels in addition to the trucks main paint job. Honestly, I spend more time doing that than actual driving, and I don't mind at all. It's very cathartic for me. 10/10, would rimjob again.. They took away our chrome wheels from before 1.2, and then sold them back to us. That's u2665u2665u2665u2665ing smart.. I bought it for ETS2 and also got it for ATS.
